SIEMENS

Gigaset C47H

Modern comfort

Highlights

- Illuminated color display and keypad
- Convenient handsfree talking with brilliant sound quality
- Phonebook for up to 150 names and numbers
- ECO DECT – for 60% less energy use[1] and variable reduction of transmitting power

The attractive handset designed for modern comfort
The Siemens Gigaset C47H is a handset especially developed for people who enjoy long, comfortable chats. Its slim, ergonomic design rests easily in the hand and makes even the longest of calls a pleasurable experience. Thanks to amazing battery life and talk time of up to 12 hours, this handset lets you catch-up with friends and family and talk to your heart’s content. The Siemens Gigaset C47H is also packed with convenient features that are all easily accessible via the illuminated color display. Talk handsfree in brilliant sound quality while you get on with other things around the house or send an SMS[2] if you’ve got no time to chat. This model offers you a spacious phonebook with room for up to 150 contacts and a choice of different ringtones with which to personalize your calling experience. You can use the room monitoring function to serve as a reliable baby alarm and also program the phone’s alarm clock to give you a morning wake-up call. Thanks to new energy-saving ECO DECT technology, the Siemens Gigaset C47H also uses up to 60% less energy than conventional Siemens phones – so it saves you money and is better for the environment.   If you’re looking for a modern handset with convenient features designed to complement your busy lifestyle, the Siemens Gigaset C47H is

an attractive choice. An illuminated color display for ease of use An easy-to-read color display makes operating the Siemens Gigaset C47H simple no matter what the level of lighting. With this handset you'll be able to dial a friend, answer an incoming call, send an SMS, edit your contacts, or even hit the snooze button on your morning wake-up call – all without ever having to strain your eyes.   Handsfree talking in brilliant sound quality This handset's handsfree function is a great solution for multi-taskers with busy lifestyles. With the Siemens Gigaset C47H you can cook, clean, organize or just lie back on the couch and relax with your hands behind your head and still be able to chat with friends or family in brilliant sound quality. A phonebook to match the busiest of social lives If you love talking on the phone then you probably have a lot of numbers to keep track of. The Siemens Gigaset C47H features a roomy phonebook that lets you store the numbers of up to 150 of your favorite chat partners. Finding, editing or deleting your contacts is also simple thanks to the easy-to-read illuminated display. Customize your phone with various ringtones They say variety is the spice of life, so go ahead and change your ringtone every week to keep things fresh. With this phone you'll have ten different polyphonic ringer melodies to choose from. Alarm clock and room monitoring functions Because a phone can offer you more than just the means to communicate, the Siemens Gigaset C47H features a number of additional helpful features. A built-in alarm clock with snooze function gives you the chance to start off every morning on the right foot, while the handy room monitoring mode lets you keep one ear on your children while they sleep. Save energy with ECO DECT Featuring an energy-saving power supply, this phone uses up to 60% less

energy than conventional phones – so it saves you money and is better for the environment. Like all Gigaset cordless phones, it also variably reduces transmitting power from the handset to base station according to their distance apart. Choosing ECO Mode on this model reduces the base station’s transmission power by 80%* . When docked** , this phone also reduces the transmitting power of both handset and base station to almost zero. As a result, you can enjoy a more energy-efficient way of staying connected with the world. Compatible with the HC450 door intercom Welcome your guests the easy way. Together with the Siemens Gigaset HC450 door intercom this handset can be transformed into a remote control for your front door. When someone rings your doorbell you’ll receive a call on your Siemens Gigaset C47H. Simply take the call to speak with your visitor, let them in and even switch on the porch light – all at the touch of a button. You don’t even need to be at home to answer the door, because the system will also forward calls to your cellphone. For more information on this feature, head to: www.easy-welcome.com The Siemens Gigaset C47H is an attractive handset designed to meet the demands of busy lifestyles. It offers you all the freedom of cordless communication and all the comfort of modern design.   [1] In comparison to conventional Siemens phones [2] Dependent on network operator * In comparison to when Eco Mode is not activated and to our conventional cordless phones ** With 1 registered handset
